Short Term/Long Term
Engagements

Does your organization have an ongoing, long-term IT function or support activity with fluctuating resource demands? Or perhaps your organization has an intensive, short-term project needing supplemental IT staff to work on-site. Many companies and IT departments find it challenging to respond to constantly changing technology needs and initiatives using only internal staff. CDI's Staff Augmentation service offers specialized consulting or staff supplementation, giving you the ability to quickly respond to technology initiatives by strategically acquiring skills and cost-effectively managing available resources as your requirements change.

Providing IT bandwidth to your organization quickly and efficiently by leveraging knowledge and accelerators of highly trained IT consultants and specialists truly sets CDI apart from all the others. Take your company to the next level while gaining the flexibility to take on your greatest challenges without the expense, delay or inconvenience of lengthy recruiting and assessment processes. CDI specializes in a variety of areas including:

- Unix, Windows, Data Base Administration
- Disaster Recovery/Backup & Recovery
- A full range of Networking Services
- Microsoft Services
- Virtualization and Consolidation Services
- SAN & Storage Services
- Enterprise Management

Success in any IT outsourcing strategy depends on choosing the right services organization that will best meet your IT skill, resource, and deliverable goals. CDI is that organization. Through quality-focused recruiting, screening and hiring methods, CDI provides the right people with the right skills whenever and wherever they are needed. CDI's team of dedicated professionals, are committed to meeting your company's needs and guaranteeing our client's success whether it be through project based engagements or staff augmentation.
