

ABOUT CDI CAPITAL

The goal of CDI Capital is to provide creative financing alternatives for customers interested in financing hardware and software solutions. CDI Capital has the ability to write leasing agreements for solution offerings that include multiple vendors, such as Cisco Systems, EMC, Hewlett-Packard Company, Sun Microsystems, Oracle Corporation – among others.

CDI Capital recognizes the importance of long-term relationships. CDI Capital will leverage the already established relationships with Computer Design & Integration – now offering creative financing solutions. Our customers will experience superior customer service and extremely competitive rates when financing through CDI Capital.

With over 25 years of experience, CDI Capital will craft a financial plan that meets the needs of your company. Our customized lease programs include:

- **Various Terms; 24, 36, 48 months**
- **Major Lease Types; Operating, Financing, Fixed Buyout**
- **Flexible Terms; Technology Refresh Options, Buyback of Existing Installed Equipment, Upgrading during the Term of Lease, Buyouts Available**
- **Our Leasing Plans Include the Upgrading/Swapping Out Any Equipment on Lease, Refinancing the Lease, and Delaying the Rent**

Let CDI Capital develop a financial plan that fits within the needs of your company.

Benefits of Leasing:

Leasing offers companies a practical, effective way to finance the acquisition of business equipment needed to grow and expand. Leasing is a convenient purchasing alternative that provides increased flexibility and tax benefits to businesses. Over 80% of businesses currently lease some, if not all, products in their data center.

- **Improves Cash Flow**
- **Fixed Payments**
- **Consolidates Debt**
- **Simplifies Equipment Upgrades**
- **Lowers Life Cycle Cost**
- **Preserves Lines of Credit**
- **Saves on Taxes**
- **Eliminates Need for Down Payments**
- **Provides Flexible Terms**

Many companies choose leasing because it preserves working capital, allowing for the lowest cash outlay. Tax advantages, interest rates, and financial structure questions arise when considering leasing. These issues are considered because they affect the use of working capital. The use of working capital creates profit. Leasing allows for the best use of working capital – translating into more profits. Leasing means lower cash outlay and effective reduction of tax liability.
