COMPUTER DESIGN & INTEGRATION LLC RANKS HIGH ON THE VARBUSINESS 500 FOR SEVENTH YEAR IN A ROW

Teterboro, New Jersey – June 2009 – Computer Design & Integration LLC, (CDI) was named to the prestigious VAR 500 list for the seventh straight year, underscoring its unique value proposition as a trusted advisor that helps businesses optimize data center technology investments.

The company is ranked at #263 on the 2009 list with revenue of \$125 million for the 2008 fiscal year. The VAR 500 is an annual ranking of the largest and most successful IT providers, consultants, integrators and services companies in North America. For complete details of this year's listing, along with detailed market analyses and breaking VAR-related news, visit www.channelweb.com.

CDI's strategic differentiation lies in its strong skill set in core infrastructure technologies and its commitment to helping its clients drive optimal business performance amid a tough economic climate. CDI's strong alliances with leading technology suppliers in virtualization, core network infrastructure and storage consolidation, including VMware Inc. and Cisco Systems Inc., are key to its ongoing success.

"To prepare for future growth, businesses are investing in technology that drives higher productivity and returns higher return on investment for existing infrastructure and operations," says Eric Bakker, President and CEO of CDI, which makes its corporate headquarters in Teterboro, NJ. "Virtualization and data center consolidation projects are considered especially mission-critical. CDI has the expertise and real-world experience to address both, which is a key differentiator compared to other technology services companies."

Computer Design and Integration LLC (CDI) provides comprehensive and innovative technology infrastructure services that solve complex business challenges. Founded in 1995, more than 80 percent of its 500 customers hail from the financial services, pharmaceutical, healthcare, retail, and media and entertainment industries. Close to 85 percent of these relationships are ongoing.
